ABOUT

As a front-end developer, I strive to combine clear, concise code with my sense of modern aesthetics to craft a sleek, intuitive web experience. The constant change of the tech world excites me, and I'm always open to learning new skills to upgrade my arsenal. I am a proud Eagle Scout who hopes to leave a positive impact on the world.

SKILLS

HTML5	Ember.js	Redux
CSS3	Vue.js	Java
Git	SCSS	Audio Production
JavaScript	Adonis.js	Excel

EXPERIENCE

Front-End Developer, The Iron Yard Academy *(January 2017 - April 2017)*
- Developed web applications using various JavaScript frameworks, including Ember and Vue
- Designed responsive front-ends using both custom CSS and frameworks such as Bulma
- Worked in Agile teams to develop full-stack applications
- Collaborated with another front-end developer and a back-end engineer on a final project, a map-based image sharing website called Trippin.

EDUCATION

The Iron Yard Academy *(April 2017)*
- Certification in front-end engineering

Belmont University *(August 2015 - December 2016)*
- Audio Engineering and Computer Science, 3.17 average

Lafayette High School *(May 2015)*
- School for the Creative and Performing Arts - Piano Major
- Pre-Engineering

HONORS

Eagle Scout *(August 2015)*
- Coordinated a community service project in which we restored a garden in one of my hometown's nature preserves by removing invasive species, rebuilding a bench, and installing a gravel walking path
